A Not for Profit Social Initiative

FROM OUR SIDE
FOR THE JOBSEEKERS OF INDIA

CAREER MANAGEMENT

We are an EdTech Startup which is an alumni of IIT, IIM and SIBM. We aim to build a 360° solution for all the Educational, Career and Corporate needs of the youth, students and jobseekers across India.

Since the COVID-19 has approached in India and the Globe, lot of things have changed including the Employment Rate which has also impacted the GDP which is the lowest in last 50 years i.e. -23.9%.

Based on our market research and conversations with around 20,000 Jobseekers, students and working professionals, we came to know that there has been an imbalance in the new policies which the corporate companies have identified and implemented with skillset of the Jobseekers.

Thus, we came up with a One-Stop simple solution where we have taken a Not For Profit Initiative to create the positive impact in Indian Economy by creating **1,00,000 jobs** across **INDIA**. Here, the Jobseekers need to attend a Career Management Session. This session will help them clear their doubts regarding their career and the new normal opted by the companies.

TalentServe's state-of-the-art algorithm will help the Jobseekers land with best curated job that suits their passion.
